

Mohamed Krezam

Wireless Architect - Projects Manager
Wireless Solution Expert

CWNE #468

What is your level of industry experience?

Working in multiple industries, Wireless Design, Wireless Analysis, Wireless Troubleshooting, Wireless Implementing.

Where did you receive your training/education?

It was all done in a self-study manner, reviewing each course book and certification while aligning my experience with that gained from work and the possible material and tools before sitting for each exam.

When did you first become interested in wireless?

I became interested in wireless back in 2010.

Why did you choose the CWNE path?

Because it's my favorite one. I'm looking forward to it becoming one of the most famous one in wireless community.

How long have you been involved in the CWNP certification process?

Since 2020.

What was the hardest part of the whole process and how did you overcome it?

Time, work, and family made it harder to manage it.

What would you say to anyone considering a CWNE designation?

Go for each and every detail, understand all the topics, learn more, practice more, work hard, study harder.

What value will your CWNE provide to you, your clients, and/or your company?

Earning CWNE was my biggest dream and finally achieved it. For my clients, feeling confident that they will be more than satisfied when I design and implement their Wireless Network. For the company, it's added value to their profile and clients.

To whom would you recommend the CWNE program?

Anyone interested in the Networking and Wireless field.
